

SEASON 1 - EPISODE 12

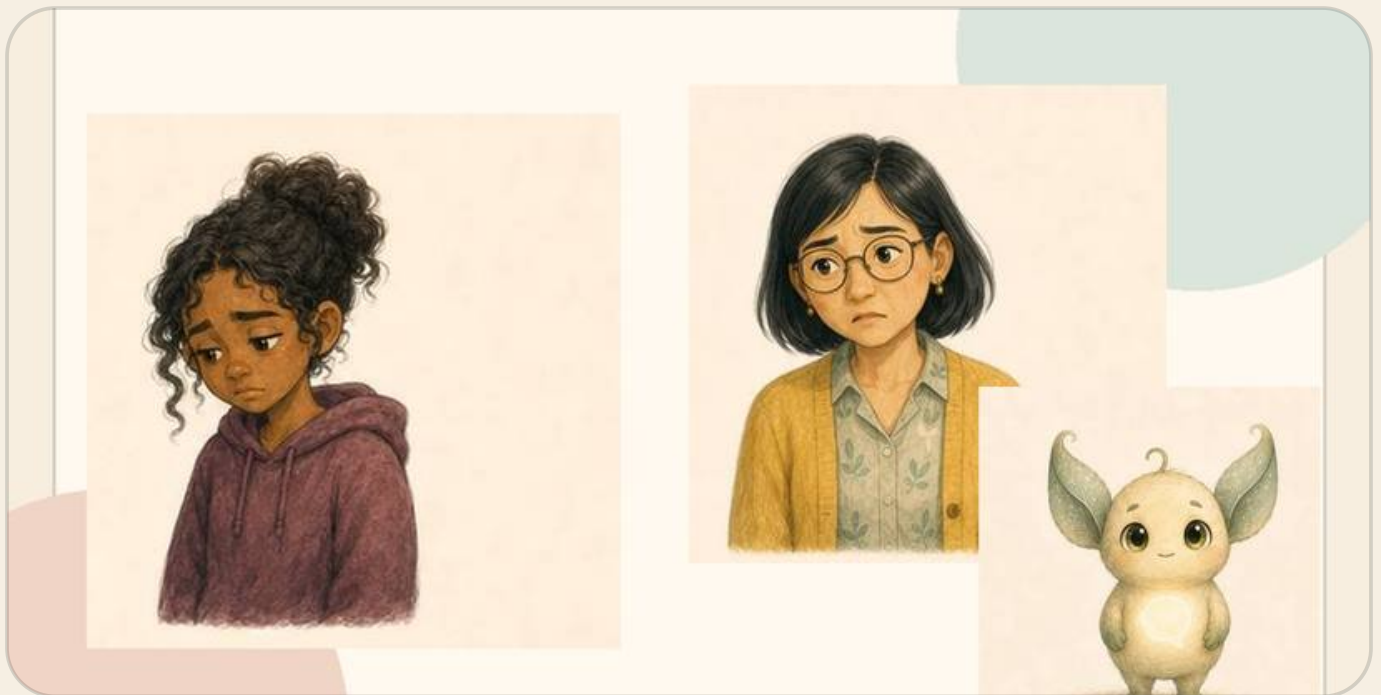

A wrong answer is information

Watch, notice, practise and transfer the adult move.

Educator worksheet

Episode 12

5 pages

A short staff reflection tool aligned to the 12 short. Use it after viewing the story, or work from the printed moment and next sentence.

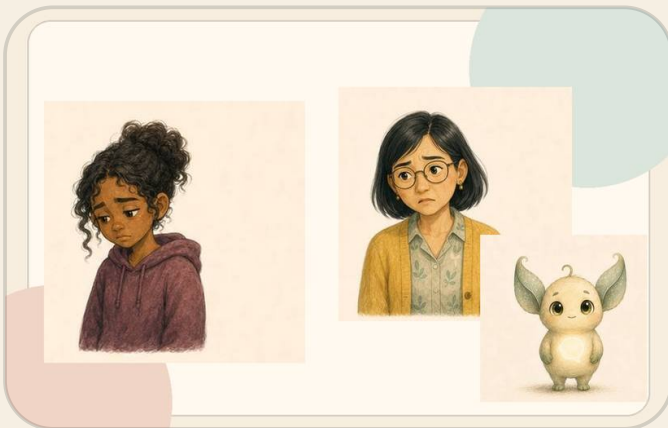

Production resource - adapt to the child, setting, culture, access needs and safety context.

01 - WATCH AND NOTICE

What changed - and what stayed?

Begin with observable words and actions. Treat the possible weather as a lens for reflection, not a fact about a child's inner state.

ORIGINAL MOMENT

"No, that's wrong. Anyone else?"

POSSIBLE WEATHER

The class got the correction. Zahra got no path back in.

NOTICE

What happened that a camera could record?

POSSIBLE IMPACT

What might the words communicate? Use may, might or could.

KEEP

What expectation, responsibility, safety or learning need remains?

CHANGE

Which part of the delivery could become more specific or usable?

Episode principle

Find the thinking.

02 - BUILD THE NEXT SENTENCE

Practise the move in four parts.

These parts are a rehearsal scaffold, not a formula that must be spoken word-for-word.

1

Pause

Identify what the moment requires before adding more words.

"Find the thinking."

2

Describe

Use specific, observable information instead of a broad judgement.

"No, that's wrong. Anyone else?"

3

Keep

Retain the boundary, responsibility, safety or learning need.

"Replace public dismissal with feedback that elicits thinking."

4

Next

Offer the clearest usable sentence or action from the short.

"I can see how you reached twelve here. Talk us through this step."

YOUR NEXT SENTENCE

Write a version that sounds natural in your setting.

Try it aloud

Check pace, volume and number of directions. If it becomes a lecture, shorten it to the first useful action.

03 - TRANSFER TO PRACTICE

Use the move beyond this one story.

Choose low-stakes examples for adult practice. Do not invite children or colleagues to disclose family conflict, harm or private experiences.

SCENE 1

Same setting

Rehearse another classroom moment where the adult needs to replace public dismissal with feedback that elicits thinking.

SCENE 2

A busier moment

Shorten the language while keeping the boundary, safety need or learning expectation.

SCENE 3

When it repeats

Identify what adjustment, information or support may be needed beyond one sentence.

STAFF DISCUSSION

Where might this pressure enter adult language? What specific wording could make the next action clearer?

ADAPTATION

How could the move be made accessible for language, motor, sensory, cultural or communication needs?

04 - REVIEW BEFORE USE

A safe discussion has clear limits.

This sample is for adult reflection. It is not a behaviour plan, assessment tool or substitute for school, service or safeguarding procedures.

FACILITATOR CHECK

- ☐ We use possibility language for possible child experience.
- ☐ We retain the boundary, consequence or safety instruction.
- ☐ We adapt the response to age, ability, context and hazard.
- ☐ We do not invite public disclosure of private experiences.
- ☐ We follow local safeguarding and incident procedures.
- ☐ We offer a private or opt-out response route.

Episode safety note

Ensure the script does not encourage exposing a student who does not want to explain publicly; teacher can offer a private option.

DRAFT ALIGNMENT NOTES

Personal and Social capability; APST 3.5/4.1/5.2

Select only the framework elements actually addressed in local learning. Alignment does not mean government approval, curriculum mandate or endorsement.

Release status: educator, parent, safeguarding, accessibility and claims review completed for template use; local contextual review remains required.

Scope

General educational information for adults. Persistent distress, safety concerns or marked changes in wellbeing need context-specific support.
