

LEARNING JOURNEY - EPISODE 114

# Shared ground: Notice what helped

Watch, notice, practise and transfer the adult move.

Educator worksheet

Episode 114

5 pages

A short staff reflection tool aligned to Episode 114. Use it after viewing the story, or work from the printed moment and next sentence.

Production resource - adapt to the child, setting, culture, access needs and safety context.

01 - WATCH AND NOTICE

# What changed - and what stayed?

Begin with observable words and actions. Treat the possible weather as a lens for reflection, not a fact about a child's inner state.

## ORIGINAL MOMENT

"At least that's over."

## POSSIBLE WEATHER

The same words can land differently across children and contexts. Hold the need while leaving room to check the impact.

## NOTICE

What happened that a camera could record?

---

---

## POSSIBLE IMPACT

What might the words communicate? Use may, might or could.

---

## KEEP

What expectation, responsibility, safety or learning need remains?

---

## CHANGE

Which part of the delivery could become more specific or usable?

---

## Episode principle

Use reflection to strengthen effective strategies and realistic next goals.

02 - BUILD THE NEXT SENTENCE

# Practise the move in four parts.

These parts are a rehearsal scaffold, not a formula that must be spoken word-for-word.

1

## Pause

Identify what the moment requires before adding more words.

"Use reflection to strengthen effective strategies and realistic next goals."

2

## Describe

Use specific, observable information instead of a broad judgement.

"At least that's over."

3

## Keep

Retain the boundary, responsibility, safety or learning need.

"Name the strategy that helped and what to adjust next time."

4

## Next

Offer the clearest usable sentence or action from the short.

"Learning deserves a brief review. Let's pause and name the strategy that helped and what to adjust next time."

### YOUR NEXT SENTENCE

Write a version that sounds natural in your setting.

---

---

---

### Try it aloud

Check pace, volume and number of directions. If it becomes a lecture, shorten it to the first useful action.

03 - TRANSFER TO PRACTICE

# Use the move beyond this one story.

Choose low-stakes examples for adult practice. Do not invite children or colleagues to disclose family conflict, harm or private experiences.

**SCENE 1**

**Same setting**

Rehearse another review moment where the adult needs to name the strategy that helped and what to adjust next time.

**SCENE 2**

**A busier moment**

Shorten the language while keeping the boundary, safety need or learning expectation.

**SCENE 3**

**When it repeats**

Identify what adjustment, information or support may be needed beyond one sentence.

**STAFF DISCUSSION**

Where might this pressure enter adult language? What specific wording could make the next action clearer?

---

---

**ADAPTATION**

How could the move be made accessible for language, motor, sensory, cultural or communication needs?

---

04 - REVIEW BEFORE USE

# A safe discussion has clear limits.

This sample is for adult reflection. It is not a behaviour plan, assessment tool or substitute for school, service or safeguarding procedures.

## FACILITATOR CHECK

- ☐ We use possibility language for possible child experience.
- ☐ We retain the boundary, consequence or safety instruction.
- ☐ We adapt the response to age, ability, context and hazard.
- ☐ We do not invite public disclosure of private experiences.
- ☐ We follow local safeguarding and incident procedures.
- ☐ We offer a private or opt-out response route.

## Episode safety note

Use local safeguarding and incident procedures. Persistent distress, online harm or safety concerns need context-specific support.

## DRAFT ALIGNMENT NOTES

Possible connections: Australian Curriculum v9.0 - Personal and Social capability: Reflective practice and goal setting; Australian Curriculum v9.0 HPE - Health literacy and applying strategies to changing circumstances; EYLF V2.0 - Outcomes 4 and 5: Confident learning and communication

Select only the framework elements actually addressed in local learning. Alignment does not mean government approval, curriculum mandate or endorsement.

**Release status: educator, parent, safeguarding, accessibility and claims review completed for template use; local contextual review remains required.**

## Scope

General educational information for adults. Persistent distress, safety concerns or marked changes in wellbeing need context-specific support.
